[add datasource](#)

The screenshot shows the 'Edit data source' interface in Grafana. At the top, there's a header with the Grafana logo and 'Data Sources'. Below that, the title 'Edit data source' is displayed. There are two tabs: 'Config' (selected) and 'Dashboards'. The configuration fields are as follows:

Name	ha	<input type="checkbox"/>
Type	Graphite	
Http settings		
Url	http://localhost:9002	<input type="checkbox"/>
Access	proxy	<input type="checkbox"/>
Http Auth	Basic Auth	<input type="checkbox"/>
	With Credentials	<input type="checkbox"/>

A green success message box states: 'Success Data source is working'. At the bottom, there are three buttons: 'Save & Test' (green), 'Delete' (orange), and 'Cancel' (grey).

plugins

Add plugin in `/var/lib/grafana/plugins/` directory

piechart

```
cd /var/lib/grafana/plugins/  
git clone https://github.com/grafana/piechart-panel.git  
systemctl restart grafana-server.service
```
