

simon

install

```
sudo apt install simon

sudo apt install libsphinxbase3 python-sphinxbase sphinxbase-utils
pocketsphinx
```

edit

/usr/lib/sphinxtrain/etc/sphinx_train.cfg

```
$CFG_CD_TRAIN = 'no';
```

model

For small amount of data for training without context-dependent models use continuous model instead of semi-continuous one and this error will be solved.

This warning is caused by the fact you disabled context-dependent training and used semi-continuous model. You can ignore this error until you have more data and use context-dependent training.

training

```
mkdir /tmp/test
cd /tmp/test

sphinxtrain -t test setup
```

now we have

```
.
└── etc
    ├── feat.params
    ├── sphinx_train.cfg
    ├── test.dic
    └── test.filler
```

adjust sphinx_train.cfg TODO
